Editor's Notes

The following list of references has been compiled from various sources on the Web, including several search services, specialized databases, and journal and author homepages, in addition to the journals and reprints themselves. If you note inaccuracies or omissions, please let me know and the correct version will appear in the next number of *MONOCULUS*. Grateful thanks to the donors of reprints to the Monoculus and Wilson libraries.

The year of publication as given refers to the year in

which the printed version of the journal was distributed, and not the year when it first became available online, if these are different. This supplement will be posted in pdf format on the WAC website.

Genuario Belmonte, Cristina Bruno, Hans Dahms, Susan Dippenaar, Maria Luz Fernández de Puelles, Sanda Iepure, Gerry Marten, Ángel Nieves-Rivera, Ahmet Öktener, and Myles O'Reilly graciously provided literature references and, in some cases, reprints. Other colleagues including Jens Nejstgaard and M. Rajkumar have donated reprints of articles that were listed in previous numbers, to the Monoculus and Wilson libraries.

Translations of titles in languages other than English (if not given by the source) are provided by the management.

Recent Publications on Copepoda

Compiled by Jan Reid and Chad Walter

Older publications that were recently listed in the "World of Copepoda" bibliographic database (C. B. Wilson Library) are included. Please advise us if you learn of publications (including theses and "gray literature"), on any aspect of the Copepoda, that are not held in the Monoculus Library or listed in the "World of Copepoda" database.
