<http://www.monoculus.org>

Each number of *MONOCULUS* is announced on:

Crust-L crust-l@vims.edu

ALCA alca@ola.icmyl.unam.mx

Planktonnet planktonnet@yahoogroups.com

Copepod List copepods@yahoogroups.com

Editor's Notes

The following list of references has been compiled from various sources on the Web, including several search services, specialized databases, and journal and author homepages, in addition to the journals and reprints themselves. If you note inaccuracies or omissions, please let me know and the correct version will appear in the next number of *MONOCULUS*. Grateful thanks to the donors of reprints to the Monoculus and Wilson libraries.

The year of publication as given refers to the year in which the printed version of the journal was distributed, and not the year when an article first became available online, if these are different. This supplement will be posted in pdf format on the WAC website.

Apostol Apostolov, Supawadee Chullasorn, David Damkaer, Nilsun Demir, Frank Ferrari, Ian R. Jenkinson, Watchariya Purivirojkul, Y. Ranga Reddy, Will K. Reeves, and Danny Tang graciously provided literature references and, in some cases, reprints. Other colleagues including Supawadee Chullasorn and Thomas Glatzel have donated reprints of articles that were listed in previous numbers, to the Monoculus and Wilson libraries.

Translations of titles in languages other than English (if not given by the source) are provided by the management.

— Jan Reid
Martinsville, U.S.A.

Plea for Reprints

Please send reprints of your articles to the Monoculus-Library and to the C. B. Wilson Copepod Library! Both paper copies and pdf files are welcome.

To the **Monoculus-Library**:

Recent Publications on Copepoda

Compiled by Jan Reid and Chad Walter

Older publications that were recently listed in the "World of Copepoda" bibliographic database (C. B. Wilson Library) are included. Please advise us if you learn of publications (including theses and "gray literature"), on any aspect of the Copepoda, that are not held in the Monoculus Library or listed in the "World of Copepoda" database.

1999 and before

- Aioanei, F. 1999. Studiul sistematic, ecologic și zoogeografic al unor grupe de paraziți ai peștilor de apă dulce din România. [Systematic, ecological and zoogeographical study of some groups of parasites in the freshwater fish from Romania.] Teză de Doctorat (Ph.D. Thesis), Institutul de Biologie al Academiei Române [Institute of Biology, Romanian Academy], Bucharest, Romania. 208 pp. [In Romanian.]
